QUALITY GARDEN BUILDINGS

GARDEN OFFICES

MPB Garden Buildings was established in the 1970's manufacturing and installing the **Malvern Collection of Garden Buildings**. During this time **The Malvern Collection** have built a reputation for producing high quality garden buildings and an unrivalled level of service within the garden building industry.

The Malvern Garden Office provides a new perspective for your home and garden. Move your office or hobby out of the house and into a fresh, new environment. **The Malvern Garden Office** creates the perfect place for working from home or for your leisure activity by creating an inspirational room in your garden. With its attractive appearance from the outside and appealing light and warm interior, it is the perfect setting for your needs - business or pleasure. Our buildings are fully lined and insulated making them warm and comfortable for all year round use.

The buildings shown in this brochure are only a guide to what we can achieve. Each building we make is designed to your exact individual requirements. If the size or design you require is not shown in our brochure then please contact us to discuss your specific ideas and plans.

Whatever style or size you want - you choose it - we'll build it.

We strongly recommend that you visit one of our display show sites to appreciate the superior quality and design of our buildings and discuss your personal requirements.

QUALITY GARDEN BUILDINGS

The Hallow

The Hallow is the most adaptable and practical building in our range. Windows and doors can be positioned to suit your requirements, the exact size of the buildings can also be tailored to fit your specification.

As standard the Hallow comes with three 1200mm x 1200mm casement/vent double glazed windows and a single half glazed door. Extra windows and doors/double doors can be added if required - see options below. All windows and doors fitted with 4mm toughened double glazed units as standard.

Internally the Hallow is fully lined and insulated making it warm and comfortable for all year round use.

Prior to delivery the Hallow is treated with three coats of medium oak stain, should you prefer there are a range of exciting colours available to choose from.

The roof of the Hallow is covered with bitumen roof tiles available in either black, red or green.

16' x 10' Hallow shown with cottage style windows and door

10' x 10' Hallow shown with door in gable end

14' x 8' Hallow

16' x 10' Hallow shown with optional double doors and in the standard medium oak colour

Options Available for The Hallow

Windows: Add additional windows to increase the amount of natural light. Change the look of your building by adding cottage windows.

Double Doors: Can be added in lieu of a single door.

Roof Velux: Maximise the natural light in your building by adding velux roof windows.

External & Internal Paint: Choose one of the many different coloured paint options.

Cedar Shingle Roof: Enhance the look and longevity of your building by adding cedar shingles to the roof.

Laminate Floor: Decorate the floor of your building with one of the laminate floor options.

Internal Wall Partitions: Create rooms within a room with internal wall partitions.

MDF Lining: Your internal lining can be upgraded to moisture resistant patterned MDF.

Guttering: Guttering and downpipes can be added to the front and back of your building.
