# Dwarf Wall

Robinsons can provide you with a greenhouse suitable for building onto a 600mm high dwarf wall and will provide all the necessary drawings for your chosen builder to construct the footings and build a single brick wall with its doorway. The bricks used should be of good quality and not sand faced. Alternatively your local agent may be able to quote you or recommend a builder.

**Sure to enhance any garden**

*8 x 10 Royale Dwarf Wall in a white finish*

The greenhouse shown is a green Royale 8 x 10 model with optional staging, shelving, louvre and ridge cresting and finials. The dwarf wall in this example has a semi-engineering brick course below ground, seven courses of LBC Tudors and a top course of Class A engineering blue bricks.

This new **Robinsons** Dwarf Wall range of attractive models, available in green, white or mill finish, has been designed to fit on a single skin dwarf wall - 1' 11<sup>5</sup>/<sub>8</sub>" (600mm) high.

A choice of five model widths and a variety of modular lengths are available.

**Eaves and Ridge height are 3<sup>1</sup>/<sub>4</sub>" (84mm) higher than the standard models (excluding Riviera)**

## Dwarf Wall Specifications

Six models are available based upon the following dimensions, in any of our standard lengths:

Regent	6' 5 <sup>3</sup> / <sub>4</sub> " (1.976m) wide
Royale	8' 6 <sup>1</sup> / <sub>4</sub> " (2.596m) wide
Rosette	10' 7" (3.226m) wide
Regal	12' 7" (3.836m) wide
Riviera	8' 6 <sup>1</sup> / <sub>4</sub> " (2.596m) wide
Lean-To	5' 4" (1.625m) wide

See the appropriate pages in this brochure for further details of lengths available for each model.

Partitions available on all models except the Regent, Riviera and Lean-Tos.

The standard Dwarf Wall Greenhouse is available on the complete Robinsons range (excluding Renaissance) and consists of: Sliding Lockable Door(s) · Level door threshold · Opening Roof Vents and automatic openers (dependant on model length - see relevant page) · Eaves Guttering with integral Downpipes · Unique capping and stainless steel fixings · PLUS 4mm Toughened Safety Glass throughout.

Personalise your greenhouse with our range of accessories, see page 11.

Toughened Safety Glass supplied as standard

Robinsons Greenhouses are designed with the disabled in mind

Ridge Cresting is an optional extra

Mill Green or White polyester powder coated finish

# Personalise your greenhouse with our range of Accessories

Ridge Cresting provides that distinctive finishing touch - available in white or green to suit each freestanding model.

These easy to use roller blinds fit each glazing section providing shade to easily damaged plants and vegetables.

Hanging basket brackets enable you to hang baskets from the glazing bars - no need for an obtrusive rail!

Partitions for the Royale, Rosette and Regal enable you to create a separate propagating or over-wintering area within the greenhouse.

Aluminium or tanalised timber staging and shelving to complement each greenhouse helps provide all the growing space you'll ever need. Uniquely height adjustable and very robust.

An automatic opening roof vent with XL opener and a 6 bladed louvre vent (with or without automatic opener) provide essential extra ventilation for increasing levels of air circulation throughout the greenhouse.

## EXTRA DOORS (in the end of your greenhouse).

	Regent 6	Royale 8	Rosette 10	Regal 12	Riviera
