Regal 12 WIDE

Dwarf Wall option available. See page 9

12x16 Regal Mill Finish

All the growing space you need

The Regal greenhouse is the widest model in our extensive range. The Regal is 12' 6" (3836mm) wide, with lengths from 8' 8 1/8" (2644mm) upwards in 2' (610mm) increments. There is no limit on the length. It is available in green, white or mill finishes and comes with 4mm toughened glass as standard.

The major technical difference between the Regal and its smaller sisters is the degree of stiffening of the frame. Ridge and eaves braces are applied to every set of glazing bars - every two feet - and extra structural stiffness is added to the door gable.

The design uses only 6' 1" (1860mm) extensions which means that any building over 8' (2440mm) long has at least one internal 'A' frame wind brace. The result is an exceptionally strong building. It is essential that a building of this span has a continuous concrete or brick perimeter footing.

Regal Specifications

The standard Regal Greenhouse comes with the following dimensions:

Colour	Mill / Green / White
Width	12' 7" (3.836m)
Ridge Height	8' 10 1/2" (2.696m)
Eaves Height	5' 6 1/2" (1.691m)
Roof Vents	24" x 24" (610 x 610mm)
Dwarf wall option	Add 3 1/4" (84mm) to the ridge and eaves height

Standard module lengths	Number of roof vents
8' 8 1/8" (2.644m)	2 - with automatic XL openers
10' 8 1/2" (3.264m)	3 - with automatic XL openers
12' 8 7/8" (3.884m)	3 - with automatic XL openers
14' 9" (4.504m)	4 - with automatic XL openers
16' 9" (5.124m)	5 - with automatic XL openers
18' 9" (5.744m)	5 - with automatic XL openers

Additional lengths are available - please ask your local agent

The standard Regal Greenhouse consists of:

Double Sliding Lockable Doors · Level door threshold · Opening Roof Vents and automatic openers (dependant on length - see chart) Eaves Guttering with integral Downpipes · Unique capping and stainless steel fixings · PLUS 4mm Toughened Safety Glass throughout.

Personalise your greenhouse with our range of accessories, see page 11.

Toughened Safety Glass supplied as standard

Robinsons Greenhouses are designed with the disabled in mind

Ridge Cresting is an optional extra

Mill Green or White polyester powder coated finish

Personalise your greenhouse with our range of Accessories

Ridge Cresting provides that distinctive finishing touch - available in white or green to suit each freestanding model.

These easy to use roller blinds fit each glazing section providing shade to easily damaged plants and vegetables.

Hanging basket brackets enable you to hang baskets from the glazing bars - no need for an obtrusive rail!

Partitions for the Royale, Rosette and Regal enable you to create a separate propagating or over-wintering area within the greenhouse.

Aluminium or tanalised timber staging and shelving to complement each greenhouse helps provide all the growing space you'll ever need. Uniquely height adjustable and very robust.

An automatic opening roof vent with XL opener and a 6 bladed louvre vent (with or without automatic opener) provide essential extra ventilation for increasing levels of air circulation throughout the greenhouse.
