Eaves Height	6' 4 ⁵ / ₈ " (1.95m)
Door	Sliding double 4' 0" (1220mm) wide, turn key lockable

The standard Renaissance Greenhouse consists of:

Level door threshold · Opening Roof Vent with automatic opener · Two louvre side vents · Eaves Guttering with integral Downpipes · Ridge cresting and finials (white and green only) · Unique capping and stainless steel fixings · **PLUS 4mm Toughened Safety Glass throughout.**

Personalise your Renaissance Greenhouse choosing from these accessories: Additional roof vent · Automatic louvre vent openers · Automatic opener upgrade · Pressure treated staging and high level timber shelving on two sides and rear.

Toughened Safety Glass supplied as standard

Robinsons Greenhouses are designed with the disabled in mind

Ridge Cresting included

Mill, Green or White polyester powder coated finish

Personalise your greenhouse with our range of Accessories

Ridge Cresting provides that distinctive finishing touch - available in white or green to suit each freestanding model.

These easy to use roller blinds fit each glazing section providing shade to easily damaged plants and vegetables.

Hanging basket brackets enable you to hang baskets from the glazing bars - no need for an obtrusive rail!

Partitions for the Royale, Rosette and Regal enable you to create a separate propagating or over-wintering area within the greenhouse.

Aluminium or tanalised timber staging and shelving to complement each greenhouse helps provide all the growing space you'll ever need. Uniquely height adjustable and very robust.

An automatic opening roof vent with XL opener and a 6 bladed louvre vent (with or without automatic opener) provide essential extra ventilation for increasing levels of air circulation throughout the greenhouse.
