8x10 Royale

8x8 Royale

'Being a life-long enthusiastic gardener, losing a leg could well have spelled the end of such activities for my wife, Joan.'

'Last summer we purchased one of your Royale models with wide opening doors and toughened glass - Eureka!! Problem solved.'

Mr J A Slade, Gloucester

The **Robinsons** Royale greenhouse is the most popular in our range. This is not surprising as it is a full 8' 6 1/4" (2596mm) wide and available in various lengths. The double doors give a 4' (1220mm) wide opening and are a particularly useful feature of this model - they slide easily, are lockable and provide easy access over

the ground-level threshold - ideal for wheelbarrow or wheelchair access.

The Royale range also has the advantage of an optional extra fully glazed partition with a single sliding door - a real must if you want to create a cost-saving propagating area or minimise heating costs during the winter.

Royale Specifications

The standard Royale Greenhouse comes with the following dimensions:

Colour	Mill / Green / White
Width	8' 6 1/4" (2.596m)
Ridge Height	7' 10 3/8" (2.397m)
Eaves Height	5' 6 1/2" (1.691m)
Roof Vents	24" x 24" (610 x 610mm)
Dwarf wall option	Add 3 1/4" (84mm) to the ridge and eaves height

Standard module lengths	Number of roof vents
6' 7 3/4" (2.024m)	1 - with automatic XL opener

The standard Royale Greenhouse consists of:

Double Sliding Lockable Doors · Level door threshold · Opening Roof Vents and automatic openers (dependant on length - see chart) Eaves Guttering with integral Downpipes · Unique capping and stainless steel fixings · PLUS 4mm Toughened Safety Glass throughout.

Personalise your greenhouse with our range of accessories, see page 11.

Toughened Safety Glass supplied as standard

Robinsons Greenhouses are designed with the disabled in mind

Ridge Cresting is an optional extra

Mill Green or White polyester powder coated finish

Personalise your greenhouse with our range of Accessories

Ridge Cresting provides that distinctive finishing touch - available in white or green to suit each freestanding model.

These easy to use roller blinds fit each glazing section providing shade to easily damaged plants and vegetables.

Hanging basket brackets enable you to hang baskets from the glazing bars - no need for an obtrusive rail!

Partitions for the Royale, Rosette and Regal enable you to create a separate propagating or over-wintering area within the greenhouse.

Aluminium or tanalised timber staging and shelving to complement each greenhouse helps provide all the growing space you'll ever need. Uniquely height adjustable and very robust.

An automatic opening roof vent with XL opener and a 6 bladed louvre vent (with or without automatic opener) provide essential extra ventilation for increasing levels of air circulation throughout the greenhouse.

EXTRA DOORS (in the end of your greenhouse).
